

Spring 2 - Year 4

Alarms

We are learning about:

- alarm systems and their uses
- how to design for a purpose

We are learning to:

- make model alarm systems for a purpose of my choosing
- consider ways in which different switches may be used to control an electrical circuit
- create working circuits with a variety of switches / according to diagrams
- evaluate my own design process and finished product according to a number of criteria.

Vocabulary

alarm system, purpose, scenarios
