

Spring 2 & Summer 1 - Year 6 - Science

Biology: Animals, including humans

We are learning about:

- **Identify and name** the main parts of the human circulatory system, and **describe the functions** of the heart, blood vessels and blood.
- **Recognise the impact of** diet, exercise, drugs and lifestyle on the way their bodies' function.
- **Describe the ways in which** nutrients and water are transported within animals, including humans.

We are learning to:

- **Plan a pattern seeking enquiry** (to be able to plan pattern-seeking enquiry independently).
- **Record my results** (be able to record results using a line graph).
- **Report on what I find out** (be able to present findings and report causal relationships from enquiries).

Vocabulary

Human Circulatory System

Functions of the heart

Blood vessels and blood

Lifestyle

Diet (nutrients, transported)

Exercise

Drugs
