

Welcome to Morden Nursey

Welcome and thank you for sending your child to Morden nursery. We are delighted that you chose to join us! We aim to make your child's time in nursery exciting, inspiring and fun! We have worked hard to create a place where children feel safe and secure in the knowledge that we are all learners and we are also all teachers. We care for each other and we learn from each other and it's ok to make mistakes.

We have set up the nursery so it is a rich learning environment in which the children can direct their own learning adventures, as well as having some more structured group times to target their progress. Our team are always there to help and support them, whether it be helping get the resources they may need to carry out an investigation or simply encouraging them to find the correct words to solve any small disagreement which may arise.

In nursery we play a lot! Play is vital to healthy brain development and it's through play that children learn how to interact and engage with the world around them. It allows children to use their creativity while developing their imagination, dexterity and physical, cognitive and emotional strength. It helps children learn how to interact with others and develops their social skills. It is probably the most important part of your child's time with us and we work really hard to ensure that our nursery is set up and equipped so that your child can experience play at the very highest level.

We follow the Early Years Foundation Stage curriculum (EYFS) and so much of the curriculum is covered by the children making their own choices within the learning environment we have created. We also have various topics which we cover each term and you will find these on the school website under EYFS curriculum.

Should you have any questions, or wish to share any news or exciting learning from home, please contact us using the school email address found on our website.

Mr Marlow & Miss Jarman
